The Kirchoff Team

OUR STORY IS THIS...

Our story is that we could NEVER have done any of what you see today or have seen in the last 15 years alone. Our story is that our entire team that makes us whole has become part of the Kirchoff

Construction Family. From the purchasing and displacement of the soil beneath every home, to the polishing of each finishing touch, our long history of partnered "tribe" have made it all possible. Our team of local subcontractors, family, and staff have been beating pavement over the years to provide affordable first time homes, high class light commercial projects, and spectacular custom homes as you see today without sacrificing quality or integrity of who we are and what we do.

The company was founded by Craig Kirchoff in 2003. A BOSS and knight in shining armor, generally covered in blood, sweat, tears, and a lot of mud, is still found on site dragging a tool trailer and tool belt to work every day. Craig's knowledge, real deal compassion, talent, and way with people in every phase of construction is where he rises to the top of our local industry. Just like a dream, no job is too big or too small. With a dream and a dash of passion, anything is possible. Craig and long standing team know this!

Might Kirchoff Construction be given the opportunity to work with you in any way, please give us a call, or contact them during this year's parade. We are glad to extend a hand and invite you into our world.

KIRCHHOFF CONSTRUCTION, INC.

949 BLACK BULL BOZEMAN

DETAILS

- 3, 596 sq. ft.
- 962 sq. ft. garage
- 4 bedrooms
- 3 bathrooms

WHICH WAY DO YOU WANT TO SWAY?

Rustic is to Modern as Craftsman is to Contemporary right? Craig Kirchoff and his crew have teamed up with Little Bear Interiors to proudly present a home that sways both ways leaving you ever so comfortably confused! Architecturally crafted together with Keith Redfern at Concept Seven Designs, this home offers 4 bedrooms, 2 living areas, and a 3 car garage centrally located inside Bozeman's premier Black Bull Golf Community

Once again the Kirchoff design/build team has married together the concept of indoor/outdoor living and challenged the mash up of modern design and rustic style in efforts to please all the crowds. Tone it down or jazz it up as the furnishings inside this home have so excellently displayed the ability of this place to take it where your imagination wants to go.

Big glass doors magically disappear, carefully thought lighting monitors movement, reclaimed staircase seems to float up to a second living area, an outdoor covered patio hosts a natural stone fireplace that warms the chilly nights, and the master bedroom/bathroom suite is a loaded showcase! Kirchoff places constant emphasis on kitchens and bathrooms that provide big luxurious feel. This home pulls out all the Kirchoff Constructions 2018 stops and obvious abundance of energy and love for what they do.
